Geographic Analysis:

APAC region is dominating and accounted the largest clinical nutrition market share in terms of revenue during the forecast period. The key factors attributing for the growth are increase malnutrition diseases, rise in the metabolic disorders, development in the patient awareness to the clinical nutritional products and rise in the geriatric population. Research by world hunger education service showed that 512 million adults and children consume too few calories, which accounts for over 12% of the total population of Asia. Furthermore, also the occurrence of diabetes in China is also rising rapidly, a major issue for obesity leading to increase in demand of clinical nutrition products. Research by UNFPA (United Nations Fund for Population Activities Asia) and pacific shows that the number of older people in the Asia-Pacific will account to be triple reaching 1.3 billion by 2050. Europe is the second dominating region due to the increase in number of diseases. In North America rising of health issues among geriatric population has resulted in the demand for clinical nutrition. The Centre for diseases control (CDC) has recorded that nearly 35 % of American children consume junk food on a daily basis leading to suffering of health conditions such as obesity, diabetes and cardiovascular diseases. This will further lead to growth in the demand of the clinical nutrition market. Moreover, initiative by the U.S. government to promote a complete nutrition care for the cancer patients is further contributing to the clinical nutrition market growth. LAMEA region has also been expected to show considerable growth rate.

Competitive Scenario :

Some of the key players in clinical nutrition industry include Mead Johnson Nutrition Company, Nestlé SA, Baxter International Inc., H. J. Heinz Company Groupe Danone, Perrigo Company Plc, Abbott Laboratories, B. Braun Melsungen AG among others.
